

Real-Time Intelligence for Every Stage of the Insurance Lifecycle

Predictive AI + Data Enrichment that Moves Insurance Forward

Fenris delivers Predictive AI and data enrichment through lightning-fast APIs built exclusively for insurance. From first touch to final bind and through renewal, our solutions give you the power to select in-appetite risks, improve conversions, and grow profitably, at every step of the insurance journey.

The Fenris Platform: Intelligent Insurance

Verified, Proprietary Insurance Data

- Real-time, verified, and deep, beyond public records
- Covers 255+ million U.S. adults, 130+ million households, 99% of vehicles and millions of businesses
- Delivered instantly at the point of quote, ping-post, or CRM entry

Predictive AI Models That Learn Fast

- Trained on 50M+ insurance outcomes across auto, home, and commercial
- Tailored to your distribution strategy and risk appetite
- Retrained and refined regularly to stay accurate as market conditions shift

API-Ready Technology Platform

- Seamless integration - no heavy lift or long implementation timelines
- Outputs built for action: delivers prefill, scores, and risk signals directly into your existing systems, no disruption required
- SOC 2 compliant and production-ready

"Fenris helps us identify and act on high-value leads instantly. It's become an essential part of our quoting workflow."

– Director of Marketing, Digital Auto MGA

Why It Matters: Pre-Underwriting Intelligence That Drives Results

- **Accelerate Speed to Quote** - Be first to return a quote and increase your chances of binding by up to 60%
- **Prioritize What Matters** - Score leads and submissions in real-time to focus on those most likely to bind, renew, or upsell
- **Maximize Distribution ROI** - Don't waste budget on leads that won't convert—use pre-underwriting signals to optimize every step

Built for Insurance. Tuned to You.

Whether you're acquiring new customers, triaging submissions, or managing renewals, Fenris equips your team with the insights they need - right when they need them. It's time to transform your distribution with a platform that's fast, flexible, and purpose-built for the future of insurance.
